## TWILIO

The image shows the Twilio account registration form. The background is a gradient of purple and blue with faint icons of a cassette tape and a smartphone. The form is white and contains the following fields and elements:

- Headline: 'Get started with a free Twilio account. No credit card required.'
- Section: 'WITH TWILIO YOU CAN BUILD:' followed by a list of features with green checkmarks: SMS marketing, Omnichannel contact center, Call tracking, Web chat, Push notifications, Alerts and notifications, and Phone verification.
- Form fields: First Name (filled with 'Hariprasad'), Last Name (filled with 'S'), Email (filled with 'hariprasadfriend20@gmail.com'), and Password (16+ Characters) (masked with dots). There is a 'Show' button with an eye icon next to the password field.
- Terms and Conditions: A checkbox is checked, followed by the text: 'I accept the [Twilio Terms of Service](#) and have read the [Twilio Privacy Notice](#). If I am a micro- or small enterprise or a not-for-profit organization in the EEA or UK, I agree to the [European Electronic Communications Code Rights Waiver](#).'
- Button: A red button labeled 'Start your free trial'.

Learn to build your first SMS app by following these steps.

1Get a number

2Send your first SMS

3See an app demo

4Follow the tutorial

5Scale your application

Step 1. Get a Twilio phone number

  
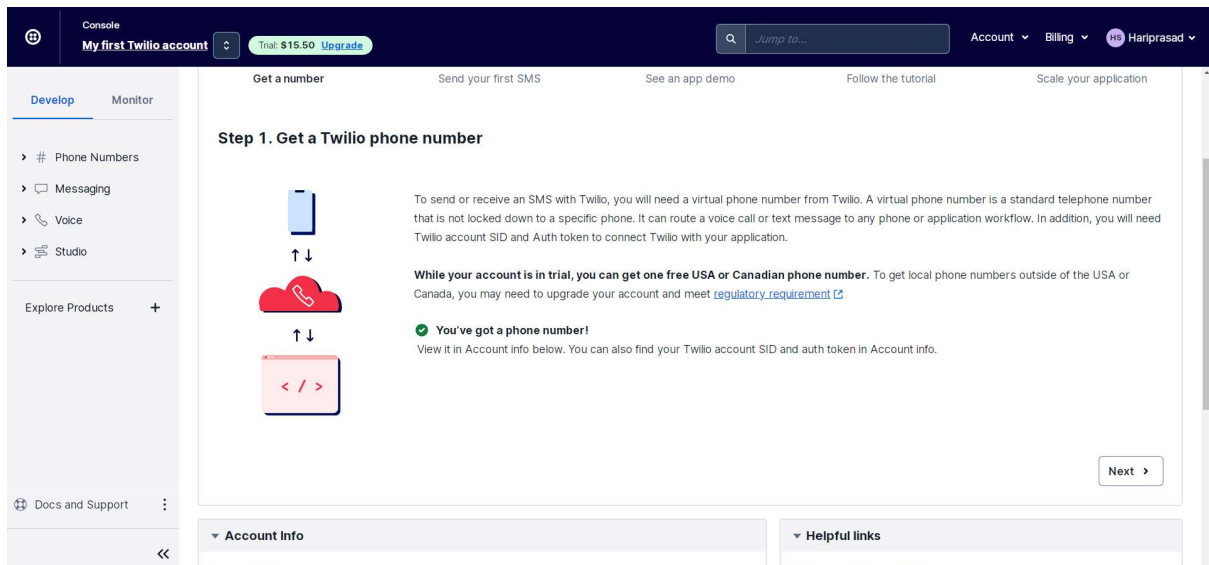

↑↓  
  
↑↓  

To send or receive an SMS with Twilio, you will need a virtual phone number from Twilio. A virtual phone number is a standard telephone number that is not locked down to a specific phone. It can route a voice call or text message to any phone or application workflow. In addition, you will need Twilio account SID and Auth token to connect Twilio with your application.

While your account is in trial, you can get one free USA or Canadian phone number. To get local phone numbers outside of the USA or Canada, you may need to upgrade your account and meet [regulatory requirements](#)
